My research brings formal verification on programming languages. Mostly, I work on Liquid Haskell, a refinement type checker for Haskell programs. I have 7 papers on CORE A\* (flagship) conferences (2 ICFP, 2 POPL, 1 PLDI and 2 OOSPLA). My h-index is 9, I have 551 citations, and I am an active member of the Programming Languages community having served to 18 committees and (co-) chaired seven venues.
